Independent Auditor's Report

To the Members of British Columbia Investment Agriculture Foundation

We have audited the accompanying financial statements of the British Columbia Investment Agriculture Foundation ("BCIAF") which comprise the statement of financial position as at December 31, 2013 and the statements of operations and changes in net assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of The British Columbia Investment Agriculture Foundation as at December 31, 2013 and the results of its operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

Report on Other Legal and Regulatory Requirements

As required by the Society Act (British Columbia), we report that, in our opinion, the accounting principles in Canadian accounting standards for not-for-profit organizations have been applied on a basis consistent with that of the preceding year.

British Columbia Investment Agriculture Foundation Notes to the Financial Statements

December 31, 2013

1. Nature of Operations and Summary of Significant Accounting Policies

a) Nature and Purpose of Organization

The British Columbia Investment Agriculture Foundation (the "Foundation") was incorporated under the British Columbia Society Act as a not-for-profit Society on October 31, 1996. The Foundation has ten member organizations representing the agri-food, rural and agri-business sectors. The Foundation is dedicated to assisting British Columbia's producers, processors, agri-business and rural communities to adapt, diversify and grow. A Board consisting of 13 directors, representing a diversity of perspectives across the entire industry, and an ex-officio, non-voting director from each of the federal and provincial governments manages the Foundation.

The Foundation is exempt from income taxes under the Income Tax Act (Canada).

The Foundation invests, manages, and disburses provincial and federal funds under a number of general and specified programs as follows:

(i) General Program Funds

The Canadian Adaptation and Rural Development ("CARD") Fund - in March 1999, the federal Minister of Agriculture and Agri-Food Canada announced funding allocations for regional adaptation councils and national programs. The CARD Fund reports these funding contributions and the related program expenses.

The Safety Net ("SN") Fund - the SN Fund reports funding contributions received from the federal and provincial governments and the related program expenses used to fund projects in the agriculture and agri-food industry which are market driven and developmental in nature, or to facilitate structural changes needed by the sector to meet future challenges.

The Agri-Food Futures ("AFF") Fund - in March 2001, the Province and the Foundation entered into a Trust Agreement to assist the agriculture and agri-food industry in achieving and maintaining competitiveness and self reliance. During 2001 and 2002, the Foundation received an aggregate of \$22,818,001 in funding contributions from the Province. The Trust Agreement provides that the Province, as settlor of the trust, may pay additional money into the AFF Fund from time to time. The AFF Fund reports these funding contributions and the related program expenses. Pursuant to the Trust Agreement with the Province, the Foundation acts as Trustee over the funds. Pursuant to the terms of this agreement, allocations of general administration to this fund are limited to the greater of 0.5% of the average Fund balance or \$65,000 annually.

British Columbia Investment Agriculture Foundation Notes to the Financial Statements

December 31, 2013

1. Nature of Operations and Summary of Significant Accounting Policies - Continued

The **Advancing Canadian Agriculture and Agri-Food ("ACAAF") Fund** - in April 2004, the federal Minister of Agriculture and Agri-Food Canada announced, as a successor to the CARD program, funding of \$8,500,000 for five years for national, multi-regional and regional initiatives in the production and processing sector to enable current and emerging issues to be addressed.

The Foundation has received \$9,339,585 to date under this initiative. The ACAAF Fund reports these contributions and the related program expenses. Funding for the Program ended March 31, 2009. The remaining funds will be granted according to the CAAP Fund criteria.

(ii) Specified Program Funds

The **Canadian Agricultural Adaptation Program ("CAAP") Fund** - in October 2009, the Foundation entered into a contribution agreement with the Minister of Agriculture and Agri-Food that provides for funding, subject to the Minister's discretion, of up to \$6,228,873 to the CAAP Fund, plus a potential \$1,185,480 of funding for collective outcome funding, over a five-year period. The objective of CAAP is to facilitate the agriculture, agri-food, and agri-based products sector's ability to seize opportunities, to respond to new and emerging issues, and pathfind and pilot solutions to new and ongoing issues in order to help it adapt and remain competitive.

The **2010 Industry Opportunities ("2010") Fund** - in March 2005, the Foundation received a \$1,000,000 grant from the provincial government towards implementing a 2010 Industry Opportunities Initiative. It is expected that the Fund will enable eligible industry applicants to develop strategies and programs to increase the awareness of, and demand for, British Columbia agriculture, food, seafood and beverage products and the products and services of the agri-tourism, culinary tourism and garden-inspired tourism sectors, and to capitalize on the opportunities associated with the 2010 Vancouver Winter Olympics.

The **Poultry Industry Bio-Security ("AI") Fund** - in March 2005, the Foundation received a \$1,500,000 grant from the provincial government towards implementing recommendations flowing from the Canadian Poultry Industry Forum - Avian Influenza - Lessons Learned and Moving Forward.

In 2006, the Foundation received an additional \$100,000 grant from the provincial government to establish a fund for the clean-up and disposal on non supply-managed premises infected by avian influenza.

British Columbia Investment Agriculture Foundation Notes to the Financial Statements

December 31, 2013

1. Nature of Operations and Summary of Significant Accounting Policies - Continued

The Livestock Waste Tissue ("LWT") Fund - in March 2005, the Foundation received a one-time contribution of \$5,000,000 toward the implementation of the British Columbia Waste and Specified Risk Material Handling and Disposal Strategy. The fund will assist British Columbia livestock producers, slaughter facility operators and renderers in their pursuit of sustainable waste tissue management methods by facilitating, supporting and coordinating: research, feasibility studies, pilot and demonstration projects, infrastructure development and transitional waste handling through strategic partnerships, education and awareness.

The Meat Transition Assistance Program ("MTAP") Fund - in April 2006, the Foundation received a \$4,000,000 grant from the provincial government towards helping British Columbia's new and existing slaughter houses meet the standards under the Ministry of Health's Meat Inspection Regulation by September 30, 2007. This program has been introduced to increase livestock slaughter capacity throughout British Columbia by ensuring there are sufficient licensed facilities to provide livestock producers reasonable access to slaughter services. In March 2008 the Foundation received \$3,255,000 of additional funding for the MTAP Program from the provincial government. During 2012 the Foundation transferred \$3,480,694 of the remaining funds to the BC Food Processors Association ("BCFPA") as requested by the Ministry of Health to support the development and implementation of a new provincial meat inspection system for provincially licensed slaughter facilities.

The On-Farm Poultry Bio-Security Pilot ("OPBP") Fund - in April 2006, the Foundation received a \$1,500,000 grant from the federal government towards funding pilot projects for on-farm biosecurity which encompass all sectors of the poultry industry in British Columbia. The goal is to nationally position Canada's poultry sector to reduce the incidence and spread of avian influenza and other zoonotic diseases that threaten domestic poultry premises in Canada.

The Canada-BC Agri-Innovation Program ("INN") - in June 2011 the Foundation entered into an agreement with the BC Ministry of Agriculture to deliver the Canada-BC Agri-Innovation Program throughout the province during the remainder of the Growing Forward Agreement (2011-2013). In aggregate, a maximum of \$1,500,000 was to be available through the federal and provincial Growing Forward Agreement. Amounts spent under this program are initially funded through the Sustaining Fund until claims are made under the terms of the agreement. The Agri-Innovation Program supports projects that lead to innovation that will enhance profitability and competitiveness, both on-farm and throughout the rest of the supply chain. The Program ended on March 31, 2013.

British Columbia Investment Agriculture Foundation Notes to the Financial Statements

December 31, 2013

1. Nature of Operations and Summary of Significant Accounting Policies - Continued

Okanagan Tree Fruit Strategy (“OTFS”) Fund - in March 2007 the Foundation was entrusted with \$3,000,000 from the provincial government to enable British Columbia’s Tree Fruit industry to implement the Okanagan Tree Fruit Strategy and deliver the orchard replant program. The Ministry of Agriculture and Lands has stipulated that the British Columbia Fruit Growers Association have the final authority for decisions on the best use of these funds.

Aquaculture Innovation (“AQUA”) Fund - in March 2009 the Foundation received \$160,000 from the BC Pacific Salmon Forum in support of technological innovation for closed-system aquaculture and ecosystem-based management. In August and September 2011, the Foundation received an additional total of \$325,458 from Fisheries and Oceans Canada, at the request of the provincial government, to further support aquaculture innovation and capacity building through projects such as evaluation of closed containment aquaculture, and the development of sustainable aquaculture projects, practices and technologies.

Tree Fruit Marketing and Infrastructure Innovative Initiative (“TFMIII”) Fund (Provincial and Federal) - in September 2010 the Foundation received \$2,000,000 from the provincial government in support of strategic investments in the Tree Fruit Sector. For the federal portion, amounts spent under this initiative are initially funded through the Sustaining Fund until claims are made with the federal government. This initiative will improve the competitiveness of the BC tree fruit industry through investment in innovative and environmentally friendly technology in packing and storage infrastructure; development of marketing and value added opportunities to increase consumption of fresh and processed apples; and development of strategies and measures to address pest management and other environmental issues. Assessment of the competitiveness of the BC apple industry is a critical component of the initiative. The underlying goal is to improve the net returns to growers while enhancing societal values through improved environmental sustainability and consumer health. In general, projects should result in broad industry benefits.

Ranching Task Force (“RTF”) Funding Initiative Fund (Provincial and Federal) - in September 2010 the Foundation received \$2,000,000 from the provincial government in support of priorities identified by the Ranching Task Force. The funding available for this initiative is a total of up to \$5,000,000 which includes the \$2,000,000 received from the provincial government and up to a further \$3,000,000 available from the federal government. For the federal portion, amounts spent under this initiative are initially funded through the Sustaining Fund until claims are made with the federal government. This initiative will improve the competitiveness of the BC beef industry through strategic investments in: market research and development of attribute branding, development of certification/standards to support attribute branding, value-chain innovation and development; new product incubation/development and investment; consumer education and business missions

1. Nature of Operations and Summary of Significant Accounting Policies - Continued

to support new exporters in emerging markets; and technological innovations that reduce costs or increase value.

The underlying goal is to create more value for beef produced in BC. In general projects should result in broad industry benefits.

Orchard Replant Program ("ORP4") - in May 2012 the Foundation received \$2,000,000 from the provincial government to be directed towards program delivery of a Tree Fruit Replant Program. These funds will be directed by the Foundation to fund the tree fruit replant program through the British Columbia Fruit Growers' Association who will coordinate and manage this replant program.

Domestic Marketing Strategy Fund ("DMS") - in April 2012 the Foundation received \$1,500,000 from the provincial government for the Marketing British Columbia Agrifoods Program, to promote all British Columbia agrifoods, domestically in British Columbia, including primary agriculture, processed foods and seafood among other products to consumers. This funding supports developing a comprehensive marketing strategy and implementation plan, including initiatives to promote British Columbia agrifoods through the Program.

The Canada-BC Agri-Innovation Program Growing Forward 2 ("GF2") - in April 2013 the Foundation entered into an agreement with the BC Ministry of Agriculture to deliver the Canada-BC Agri-Innovation Program Growing Forward 2 throughout the province for the period covering April 22, 2013 to March 31, 2015. In aggregate, a maximum of \$3,000,000 will be available through the federal and provincial Growing Forward 2 Agreement. Amounts spent under this program may initially be funded through the Sustaining Fund until advances are received under the terms of the agreement. The Canada-BC Agri-Innovation Program (CBCAIP) under *Growing Forward 2* is a 2-year program designed to increase industry competitiveness and sustainability. Through the program, industry, academia, value-added food processors, retailers and others in the agri-food industry will have access to funding to support the acceleration of innovation through late-stage research and pilot projects that lead to the commercialization and/or adoption of innovative products, technologies and practices.

The BC Agrifoods Export Program Growing Forward 2 ("GF2E") - in October 2013 the Foundation entered into an agreement with the BC Ministry of Agriculture to deliver the BC Agrifoods Export Program Growing Forward 2 throughout the province for the period covering October 3, 2013 to March 31, 2014. In aggregate, a maximum of \$660,000 will be available through the federal and provincial Growing Forward 2 Agreement. Amounts spent under this program may initially be funded through the Sustaining Fund until advances are received under the terms of the agreement. The funding for this Program is available to enable industry engagement in international market development activities, including participation in international tradeshows, promotional events and incoming/outgoing missions, and creating marketing collateral to support international market development.

British Columbia Investment Agriculture Foundation Notes to the Financial Statements

December 31, 2013

1. Nature of Operations and Summary of Significant Accounting Policies - Continued

In addition to the above general and specified program Funds the Foundation maintains a **Sustaining Fund** to provide a solid financial base to continue its investments in industry development for many years to come. This Fund records net investment income and expenses not otherwise allocated to other Funds.

b) Basis of Accounting

The financial statements have been prepared using Canadian accounting standards for not-for-profit organizations ("ASNPO").

c) Fund Accounting

The Foundation's financial statements are prepared on a fund accounting basis. Inter-fund balances are eliminated.

d) Use of Estimates

The preparation of financial statements in accordance with ASNPO requires management to make estimates and assumptions that affect the reported amounts of assets, and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates as additional information becomes available in the future.

e) Capital Assets

Purchased capital assets exceeding \$500 are recorded at cost. Amortization based on the estimated useful life of the asset is calculated as follows:

Computer equipment - 30% diminishing-balance basis
Furniture and equipment - 20% diminishing-balance basis

f) Revenue Recognition

Contributions, grants, and royalty recoveries are recognized as revenue when received or when grant claims have been submitted for expenditures made under ongoing programs. Funds received or billed to cover specific program expenses of a fund are deferred until the related expense has been incurred.

Grant revenues are unconditional transfers of funds to the Foundation for activities that meet eligibility criteria set by the funding program. Grants are not subject to government audit. Contributions, unlike grants, are subject to performance conditions that are specified in a contribution agreement. Contributions are subject to government audit.

British Columbia Investment Agriculture Foundation
Notes to the Financial Statements

December 31, 2013

1. Nature of Operations and Summary of Significant Accounting Policies - Continued

Investment income is also recorded as revenue when received and fluctuations in the market value of investments are recorded as investment income in the year such fluctuations occur.

g) Donated Goods and Services

The Foundation records donated goods and services as a contribution and corresponding expense where the amounts are reasonably determinable.

h) Program Expenditure Recognition

The Foundation records amounts advanced under approved projects as an expense upon disbursement.

i) Financial Instruments

Financial instruments are recorded at fair value when acquired or issued. In subsequent periods, all cash and temporary investments have been designated to be in the fair value category, with gains and losses reported in operations. All other financial instruments are reported at cost or amortized cost less impairment, if applicable. Financial assets are tested for impairment when changes in circumstances indicate the asset could be impaired. Transaction costs on the acquisition, sale or issue of financial instruments are expensed for those items re-measured at fair value at each statement of financial position date and charged to the financial instrument for those measured at amortized cost.

j) Allocation of Expenses and Investment Income Among Funds

The Foundation has adopted a policy to allocate expenses and investment income among the funds as follows:

- expenses directly attributable to a Fund are charged to the Fund to which they relate;
- expenses are charged to the Agri-Food Futures (AFF) Fund pursuant to the terms of the Agri-Food Futures Trust Agreement;
- in consideration of the activity required to administer the Advancing Canadian Agriculture and Agri-Food Fund (ACAAF) program an annual allocation of 9% of non-fund specific expenses is charged to this Fund;
- all other non-fund specific expenses are recorded in the Sustaining Fund where they are expected to be covered by investment revenues allocated to that Fund;

British Columbia Investment Agriculture Foundation
Notes to the Financial Statements

December 31, 2013

1. Nature of Operations and Summary of Significant Accounting Policies - Continued

- investment income and investment management and custodian fees related to the CAAP and AFF Funds are recorded in their respective Funds;
- the ACAAF, TFMIII, RTF, ORP4, and DMS Funds are allocated a portion of investment income net of investment management and custodian fees based on their average fund balances in the year relative to the other remaining average fund balances; and
- the remaining investment income is recorded in the Sustaining Fund to cover other non-fund specific expenses.

Corporate bonds, debentures, and notes	-	2,273,258	6,844,157	-	9,117,415
Equities	-	-	-	6,462,068	6,462,068
	\$ 8,670,196	\$ 6,695,473	\$ 13,773,618	\$ 6,462,068	\$ 35,601,355

	2012				
	Terms to Maturity (in Years)				
	Under 1	1 to 5	Over 5	No Fixed Maturity	Total (at Market)
Cash	\$ 2,410,337	\$ -	\$ -	\$ -	\$ 2,410,337
Treasury Bills	8,009,831	-	-	-	8,009,831
Government and government guaranteed bonds	1,358,244	3,571,909	13,344,211	-	18,274,364
Corporate bonds, debentures, and notes	2,530,486	1,390,550	3,590,508	-	7,511,544
Equities	-	-	-	6,815,026	6,815,026
	\$ 14,308,898	\$ 4,962,459	\$ 16,934,719	\$ 6,815,026	\$ 43,021,102

As at December 31, 2013, the treasury bills bear interest at rates ranging from 0.91% to 1.08% (2012 - 0.93% to 1.29%). Government and government guaranteed bonds bear interest at rates ranging from 1.75% to 11.00% (2012 - 1.85% to 11.00%). Corporate bonds, debentures and notes bear interest from 2.20% to 7.768% (2012 - 2.74% to 7.90%).

Investment Income

Details of the total investment income for the year are as follows:

	2013	2012
Interest and dividends	\$ 1,264,271	\$ 1,501,705
Realized (losses) gains	(241,168)	406,002
Unrealized gains (losses)	63,624	(96,435)
	\$ 1,086,727	\$ 1,811,272

British Columbia Investment Agriculture Foundation
Notes to the Financial Statements

December 31, 2013

3. Capital Assets

			2013	2012
	Cost	Accumulated Amortization	Net Book Value	Net Book Value
Computer equipment	\$ 179,760	\$ 117,707	\$ 62,053	\$ 75,750
Furniture and equipment	5,619	4,289	1,330	1,663
Mobile Abattoir	1	1	-	-
	\$ 185,380	\$ 121,997	\$ 63,383	\$ 77,413

During the year, the Foundation took ownership of a mobile abattoir that was purchased by the BCFPA with existing funds that the BCFPA had received under the MTAP Fund. The Foundation assumed ownership of the mobile abattoir at the request of the Province. The mobile abattoir is currently being leased to a third party operator under a lease and operating agreement for a nominal amount for a 3 year period and the lease relationship is being directly managed by the Province. The lease agreement requires the third party operator to be responsible and liable for all costs and maintenance activities associated with the mobile abattoir. Any costs incurred by the Foundation in relation to the mobile abattoir are to be reimbursed by the Province. As the Foundation does not receive any rewards from the mobile abattoir, and there is minimal risk associated with the operating activities of the mobile abattoir, the mobile abattoir was recorded at nominal value.

4. Provincial Administration Contribution

Effective April 1, 2009, the Foundation entered into a Memorandum of Understanding with the Ministry through which the Ministry fully recovers costs for office space, workstations, office equipment and supplies made available to the Foundation. This Memorandum of Understanding terminates on March 31, 2014 and may be renewed for an additional term upon agreement of both parties.

British Columbia Investment Agriculture Foundation
Notes to the Financial Statements

December 31, 2013

5. Committed Funds

The Foundation has made various commitments to make program expenditures. Some funds are committed by way of contract with program fund recipients, some funds have been committed by approval of the Board but are awaiting execution of a signed contract and other funds have been reserved by the Board to apply to specific approved projects and/or initiatives.

Committed funds not yet received represent amounts that have not yet been received from the program funder. This is the result of the timing difference that exists between when the committed funds are spent and when the funds can be claimed from the program funder and recorded as revenue. When funds are committed under specific programs, the Board will not ultimately spend more program funds than is stipulated in the legal agreement between the Foundation and the program funder.

As at December 31, 2013 the Foundation had approved the funding of projects committing the Foundation to payments approximately as follows:

	General Program Funds					Specified Program Funds	Total
	Sustaining Fund	CAAP Fund	SN Fund	AFF Fund	ACAA Fund		
Funds committed by contract							
2014	\$ 15,229	\$ 922,618	\$ 802,857	\$ 130,351	\$ 658,054	\$ 3,570,602	\$ 6,099,711

6. Financial Instrument Risks

The Foundation, through its financial assets and liabilities, is exposed to various risks. The following analysis provides a measurement of those risks at December 31, 2013.

a) Credit Risk

Credit risk is the risk that the Foundation will incur a loss due to the failure by its debtors to meet their contractual obligations. Financial instruments that potentially subject the Foundation to significant concentrations of credit risk consist primarily of cash and temporary investments and accounts receivable. The Foundation limits its exposure to credit risk by placing its cash and temporary investments with high credit quality governments, financial institutions and corporations in accordance with investment policies adopted by the Board. Accounts receivable are due from the federal and provincial governments, and various agriculture associations.

British Columbia Investment Agriculture Foundation
Notes to the Financial Statements

December 31, 2013

6. Financial Instrument Risks - Continued

b) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rates and terms of cash and temporary investments are as disclosed in Note 2.

c) Market Risk

Market risk is the risk that the value of an investment will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual investment, or factors affecting all securities traded in the market.

d) Liquidity Risk

Liquidity risk is the risk that the Foundation will not be able to meet its obligations as they fall due. The Foundation maintains adequate levels of working capital to ensure all its obligations can be met when they fall due and tracks commitments to ensure funds committed do not exceed fund balances (Note 5).

The Foundation has adopted by-laws established in accordance with the Society Act to limit the amount of credit exposure in any one type of investment instrument and to ensure investments meet specified minimum standards of quality. The Foundation has also adopted an investment policy pursuant to which investments are managed conservatively to secure the preservation of capital and the availability of liquid funds as required by the Foundation. The Foundation retains a qualified investment firm to invest surplus funds in accordance with its investment policy.

7. Comparative Figures

Certain comparative figures have been reclassified to conform with the current year's financial statement presentation.
