

# 2022-23 BENEFICIAL MANAGEMENT PRACTICES PROGRAM

## Application Timing Windows – opening at 8:30am on the respective dates

An application window approach has been put in place for acceptance and processing of incentive-based beneficial management practices (BMPs). The intent is to distribute funds in a more targeted and streamlined fashion. This is to improve on the first-come-first-served application process was used in previous years. Funding will be initially allocated to the seven groupings of BMP Practices Codes. Specifics of Practice Codes in each grouping can be found in Table 1. The seven groupings are:

1. Supplementary Management Plans
  - Begin accepting applications on *March 22, 2022* with closure subject to funding availability
2. Engineering or Technical Design Projects
  - Application window *March 22, 2022* with closure subject to funding availability
3. Irrigation Projects
  - Application window *April 5 – 12, 2022*
  - Category 18 (Practice Codes 1804 A, 1804 B, 1805, 1806)
  - All projects will be subjected to merit-based review and ranking using the information required under General Policy Statement 24 (2022-23 BMP List)
4. Long Term Complex or Construction Projects
  - Application window *April 11 – 14, 2022*
  - Initial preference will be given to projects directly related to nutrient management
5. Riparian Projects
  - Application window *April 5 – 12, 2022*
  - Category 10 and 11 (Practice Codes 1001, 1002, 1003, 1006, 1101)
  - Practice codes 1006 & 1101 will also require proof of application for Section 11 permits for work to be done in or around a stream (as applicable).
  - All projects will be subjected to merit-based review and ranking using the information required under General Policy Statement 25 (2022-23 BMP List)
6. Short Term Projects or Equipment Purchases
  - Application window *May 3 – 10, 2022*
7. Energy / GHG Projects
  - Application window *May 3 – 10, 2022*
  - Category 33 (Practice Codes 3302-1/2/3, 3303, 3304, 3305, 3307, 3308, 3310, 3310 A)

DELIVERED BY

FUNDING PROVIDED BY

2022-23 BMP PROJECT PRACTICE CODE CATEGORIES					
GHG/Energy Projects (\$125K)		Long Term Complex or Construction Projects (\$200K)		Short Term / Equipment Projects (\$150K)	
3302-1	equipment	201	construction	105	equipment/installation
3302-2	equipment	501	construction	301	equipment
3302-3	equipment	601	construction	801 B	equipment
3303	equipment	704	construction	801 C	installation
3304	equipment	803	construction	802 A	equipment
3305	equipment	1701	construction	802 B	equipment
3307	equipment	901	construction	805	equipment
3308	equipment	903	construction	905	equipment/installation
3310	equipment	904	construction	1601 A	equipment
3310 (A)	equipment	1004	planting	1601 B	equipment
		1005	installation	1601 C	equipment
		1304	planting	1602	acquisition
		1901	planting	1802	equipment
		2204	installation	1804A	installation
		2204 (A)	installation	2206	equipment
		2208	planting	3101-3	acquisition
		2207	planting	3202	equipment
		3101-1	construction	3203	equipment
		3101-2	construction		
		3201	installation		
Irrigation Projects (\$250K)		Riparian Projects (\$250K)		Other (Part of GHG)	
1804 B	installation	1001	installation	3501	Innovation
1805	installation	1002	installation		
1806	installation	1003	installation		
		1006	installation		
		1101	construction		
Engineering or Tech. Design (\$125K)		Management Plans (\$150K)		Detailed Management Plans (Part of Designs)	
204	design	2401 (A)	NMP Plan (EP)	106	Leak assessment
503	design	2501	Pest Plan	804	Compost design
603	design	2601	Grazing Plan	2401 (B)	NMP Plan (QP)
1007	design	2801	Biodiversity Plan	3301	Energy assessment
1102	design	2901	Irrigation Plan		
1702	design	2902	Water Plan		
3102	design	3001	Riparian Plan		
3309	design	3401	Vegetative Buffer Plan		

For more details on the eligible items, caps and cost shares for each BMP Practice Code refer to the [2022-23 Beneficial Management Practices Program List](#) – available at [CAP: Environmental Farm Plan Program – Investment Agriculture Foundation of BC \(iafbc.ca\)](#) or contact the Program at:
