

# Traceability Adoption Program: Software Vendor List

This is a list of software vendors which offer software that has been successfully adopted by recipients of Traceability Adoption Program funding. This list is meant to be a reference point for the types of software previously successfully adopted and is not an exhaustive list. Other vendors may be eligible in the program.

## Contents

General Agriculture and Agrifood.....	2
Aquaculture and Seafood .....	2
Crop Agriculture and Produce .....	3
Livestock.....	3
Food and Beverage.....	4
Grocery, Retail and Hospitality.....	5
Cross-Sectoral Solutions.....	6

## Notes:

**Agrifood ERP** refers to enterprise resource planning (ERP) process management software that integrates multiple business applications, including a traceability system, and is targeted to agrifood businesses.

**Agrifood Traceability** refers to traceability software with a focus on agriculture or agrifood business needs.

**Disclaimer:** This list has been compiled for reference only and does not reflect endorsement or approval by IAF or the Governments of Canada and BC. Applicants are solely responsible for ensuring the appropriateness of any traceability system for their operation or project and are encouraged to seek advice from an industry professional if required to evaluate the most suitable option for your business.

## General Agriculture and Agrifood

VENDOR	PRODUCT TYPE	NOTES	COUNTRY OF ORIGIN	CUSTOMIZABILITY
