

Traceability Adoption Program - Traceability Experts

February 2025

This document provides a list of Traceability Experts who are pre-approved to complete an assessment for the Traceability Adoption Program (TAP), which is funded under the Sustainable Canadian Agricultural Partnership, a federal-provincial-territorial initiative, and is delivered by IAF.

Program applicants may use other experts, provided they meet program requirements. Supporting documentation may be required.

Interested in being listed?

If you are interested in being listed, please complete this form, and the Program Manager will be in touch.

In order to be listed, interested parties must:

- Have experience with the successful installation and operation of traceability systems for food and agriculture.
- Have knowledge and experience related to the effective use of software and hardware systems to achieve the goals of traceability as required by GFSI. Having a GFSI accreditation is considered an asset but is not required if the consultant has extensive experience. A list of GFSI schemes can be found on the [GFSI website](#).

Interested parties will need to provide documents outlining how they meet the above criteria. This could include:

- A resume
- A cover letter
- A letter from a GFSI scheme
- A registration number
- A web listing

To be pre-approved and listed, please complete [this form](#) and the Program Manager will be in touch.
